MEMORANDUM FOR: Mr. Hugh Montgomery  
Director of Intelligence and Research  
Department of State

SUBJECT: INR Automated Intelligence Support

1. I have reviewed your memo of 12 August and the Intelligence Community Staff INR Automated Intelligence Support Study. I concur in the recommendations contained in the study and am pleased that you also support its principal recommendations.

2. I have designated the Intelligence Community Staff to provide technical consultation in carrying out the recommended program of action and working with you in the INR ADP upgrade.

3. One of the principal recommendations of the Intelligence Community Staff study is that a technically competent individual be employed by INR to participate in the development of INR's long-term information handling requirements and to serve as Project Manager for INR's future automated systems development and implementation. If such a position, reporting at a senior level within INR, is established and filled, you may be assured of the full cooperation and support of both the DCI and the Intelligence Community Staff in obtaining the necessary resources to meet INR's goals in this area.
